

# **2024 Governor's 20**

**Helena Police Range August 10<sup>th</sup>, 2024**

**L.E. Shooting Competition and Conference**

**How has your agency kept up with the drastic evolution of duty weapons, ammunition, tactics, equipment, and liability over the last decade? Where do you plan to go in the next decade and what will it take to get there? Most MT agencies cannot justify the time or money to consistently send delegates to Shot Show or keep up on ever improving tools, training, tactics, ammunition and equipment.**

- Come network with firearms instructors, armorers, tactical officers, and industry professionals from around the state, country, and even Canada.
- Bring your past, present, or future Duty Gun and put your training and experience up against the historic NRA PPC course of fire.
- Help us in the ongoing discussion about what gear does or does not belong in law enforcement. Optic and iron sight categories available.
- Before/after you shoot, there will be time to visit with other officers, administrators, or vendors, and discuss past, current, and upcoming trends.
- Stay for the awards banquet in the State Capitol Rotunda which will close out the event with awards and door prizes from this year's sponsors.
- Family friendly event with a significant others match.

**Plan to join us in Helena, MT on August 10<sup>th</sup> for a great time and help us as we continue the search and discussion about the best duty gear currently available. For additional information please reach out to,**
